

// Career Pathway

ENSURE YOUR EMPLOYEES FEEL SAFE AND PREPARED TO PERFORM THEIR JOBS

Our Health and Safety Pathway is designed to provide comprehensive, targeted training through micromodules, ensuring your team receives the specific knowledge they need to feel confident and safe in their roles. This approach allows for efficient learning and better retention of critical safety practices.

Health and Safety modules are organized into 120+ concise micro-modules, each including assessments. This provides a time-efficient learning experience, focusing on essential knowledge for worker's safety.

Micromodules Provide Focused & Relevant Learning, Including:

Robust OSHA coverage including introduction modules, standards, inspections, citations and penalties.

PPE training coverage including protective equipment for the eyes, face, head, limbs, body, hearing, and respiratory system.

Handling dangerous workplace situations includes recognizing and reacting to workplace violence, discrimination and harassment.

Essential training on safe anhydrous ammonia handling, including PPE, emergency response, and OSHA PSM compliance.

Ensure Competency Across Your Workforce with Content in English and Spanish Plus Interactive Modules

ENSURE YOUR EMPLOYEES FEEL SAFE AND PREPARED TO PERFORM THEIR JOBS

Elevate your team's expertise with WorkForge's comprehensive Health & Safety pathway.
